Kunal Prakash *Staff / Lead Software Engineer*

kunalprakash.official@gmail.com India

Tech Lead and Systems Architect with **7+ years** building for the web. Next.js and web performance specialist, scaling apps to **20M+ users**. Focused on **micro frontend architecture**, **web performance engineering (Core Web Vitals)** and **security-first AI governance** across the engineering lifecycle. Open to high-impact **Senior/Staff Engineer, Tech Lead and Architectural roles** in product-focused organizations.

Achievements

- **Performance engineering at scale:** led the Livemint migration from VanillaJS to Next.js and architected domain-driven Micro Frontends serving **20M+ monthly active users**, with **20% faster page loads**, LCP/INP improved by **up to 35%** and a **15% reduction in bounce rates**.
- **AI workflow orchestration:** built deterministic guardrails for Agentic Workflows through intent-based logic audits, performance budget governance and Cursor/Copilot integration, boosting engineering sprint velocity by **25%**.
- **Scalable systems and developer tooling:** designed **8+ core npm packages**, streamlining internal dev processes and accelerating overall time-to-market by **30%**.

Core Competencies

- **Architecture & Frameworks:** Next.js · React · SSR · Micro Frontends (CDN Path Routing) · System Design
- **Web Vitals & Performance:** LCP/INP Optimization · Asset Pipeline Governance · High-Traffic Handling (Elections/Budget Surges)
- **APIs & Data:** GraphQL · REST APIs · Microservices Integration
- **Engineering Leadership:** AI-Assisted Dev Orchestration · Architectural Audits · Technical Mentorship

Professional Experience

Tech Lead **Mar 2025 – Present** | Remote
HT Digital Streams

- **Architectural leadership and migration:** spearheaded the end-to-end modernization of the **Livemint** platform from **VanillaJS to Next.js**, achieving a **20% improvement in page load speeds** and a **15% reduction in bounce rates**.

SDE-3 **May 2024 – Mar 2025** | Remote
HT Digital Streams

- **High-scale performance:** drove **Core Web Vitals** optimization for high-traffic media platforms serving **20M+ MAU**, achieving a **30% gain in LCP** and a **35% gain in INP** through strategic SSR and asset optimization.

SDE-2 **Mar 2022 – Apr 2024** | Remote
HT Digital Streams

- **SSR and frontend modernization:** engineered high-performance **Next.js** interfaces focused on mobile web optimization, reducing user bounce rates by **15%**.

Senior System Engineer **Oct 2019 – Feb 2022**
Infosys

- **React and frontend development:** developed interactive, responsive UI components using **React.js and JavaScript** for complex enterprise web applications.

Education

Galgotia's College of Engineering and Technology, Greater Noida **2015 – 2019**
Bachelor's degree, Computer Science
